Fassadenbegrünung

A lush vertical garden wall is the central focus, featuring a diverse array of plants. On the left, there are dense clusters of purple flowers and green foliage. The middle section is dominated by tall, feathery green ferns and various grasses. To the right, more purple flowers and greenery are visible. The garden is mounted on a building facade with white horizontal siding and dark grey trim around the windows. A portion of a silver car is visible in the bottom right corner. The overall scene is bright and colorful, showcasing a modern urban landscaping technique.

Instandhaltung

Grundsätzlich: ohne Pflege funktioniert es nicht

4-6 Pflegedurchgänge im Jahr; Hauptaugenmerk auf Bewässerung

Im Winter ~1x im Monat durchdringend bewässern im frostfreien Bereich

Birkenmeier Industriefassade

Niederrimsingen

Daimler Truck

Gaggenau
